Dear Valued Customer,

Thank you for trusting A&H Security as a resource for your security needs. In our continuing efforts to keep our customers up-to-date with changes to your City Ordinances, we have prepared the following information. For additional information or questions, please feel free to contact our office at: 918-637-9090.

### **City of Tulsa Alarm Permit Information – provided by: [www.cityoftulsa.org](http://www.cityoftulsa.org)**

#### **Purpose**

The purpose of the City ordinance is to encourage alarm users to assume increased responsibility for maintaining the mechanical reliability and the proper use of intrusion alarm systems, to prevent unnecessary police emergency response to false alarms and protect the emergency response capability of the City. A study of alarm responses for the City of Tulsa indicated that false alarms are caused almost exclusively by either human failure to use the system properly or mechanical failure resulting from malfunction or poor design. By coming to the understanding that, other than actual criminal activity, there is no valid reason for an alarm to activate, the police can better target responses to crime.

#### **Alarm Ordinance Is Voluntary**

Every alarm user shall be responsible for choosing to request the police provide first response or secondary response to their intrusion alarm system. Should a person elect the police to act as secondary response, the alarm user shall not be required to obtain a certificate.

#### **Your Option**

Citizens choosing not to register their intrusion alarm system or failing to maintain their First Response Certificate would receive Secondary response from police officers. Secondary response means that police would not be dispatched to an intrusion alarm until after an Alarm Industry Business or citizen has provided its own response and determined that actual or attempted criminal activity has triggered the alarm.

#### **Obtaining The First Response Certificate**

Alarm users must submit the Application for First Response Certificate along with a **Thirty Dollars (\$30.00)** application fee. Checks must be made payable to the City of Tulsa.

#### **Term**

The certificate is valid for one (1) year and will expire one (1) year from the date of issuance. *The First Response Certificate is not transferable to another person or location.*

#### **Renewal**

On the expiration date or up to thirty (30) days prior to the expiration date, if the alarm user continues to meet the requirements of Section 1904, a first response certificate that is not currently under suspension may be renewed upon the submission of an updated application and the payment of a renewal fee. The renewal fee shall be **Thirty Dollars (\$30.00)**, provided that if no false alarm dispatch has occurred within the prior year, the renewal fee shall be **Fifteen Dollars (\$15.00)**. *A first response certificate that is not renewed within ninety (90) days after its expiration shall not be renewed.*

**Visit [www.ahsecurity.com](http://www.ahsecurity.com) or [www.cityoftulsa.org](http://www.cityoftulsa.org)  
to see a copy of the City of Tulsa Ordinance - Chapter 19**
